[BY TELEGRAPH TO THE TRIBUNE.]

San Francisco, April 15.-There was an attempt made here by certain newspapers to arouse war excitement over Samoa, but the Californians are hard-headed people, not easily swept off their feet, and the prompt disclaimer by Germany appears to have ended any prospect of fighting between the Powers over the petty quarrel at Apia. The greatest interest is taken here in reports of fighting near Manila, as a large number of coast men are in the ranks. The release of the lst California Regiment will come soon, but if the matter of mustering out were left to a vote of the men it is doubtful whether many would choose to return before the close of the campaign. From letters received from the men in the ranks it is plain that the soldiers are in a far better physical condition than was expected, and that the percentage of illness is small for hard service in a tropical country.

It is probable that Sutro Heights and Sutro Baths will be stripped of statues, curios and other interesting objects in order that these be sold for the benefit of the estate. The income from the estate amounts to only \$62,000 a year, which barely pays the interest on the \$650,000 mortgages held by the Hibernia and Nevada banks. Legacies of \$350,000 to persons not belonging to the family cannot be paid until some of the real property and all the personal property is sold. The result will be the selling of many blocks of outside land which Sutro in his lifetime would not consent to part with

The Supervisors, after making a bluff last week of cutting gas rates almost in two, this week reconsidered the resolution reducing rates to \$1 10 a thousand cubic feet, and decided to recommend a compromise rate of \$1.50 for city lighting. This action laid the majority open to the charge of having been "seen" by agents of the gas monopoly, especially as the members could give the minority no good reason for their radical change of opinion in regard to the value

A picturesque local character, Captain Thomas Francis O'Malley Baines, died this week. He was a Papal Zouave, and afterward, in 1866, was sent to the penal settlement in Australia with John Boyle O'Reilly and other Fenians. He came here in 1872, and was prominent as an adherent of Kearny in the Sand Lots movement. He was always conspicuous by his dress and by his fondness for wearing an antique sword

Mrs. Ellen Henrotin, of Chicago, had a reception this week by the Laurel Hall Club, and de livered an address on the advantages of the Federation of Women's Clubs. She urged the union of women on this coast, and especially in California, as the only means of strengthening the organizations and enabling them to have their just influence in educational and social re-

The Bostonians finished a successful fifth week with "Robin Hood," which, though given on every visit, seems to have lost none of its drawing power. Next week they give three operas and bring to a close one of their best seasons in San Francisco. Coming almost at the end of the grand opera season, their success has been noteworthy. Sauer appears next week for two piano recitals at the Grand Opera House.

It is expected that the Rev. H. E. Cooke, rector of Trinity Episcopal Church, will present his resignation to-morrow. During the year he has been in the service of the church there has been much dissatisfaction over his efforts to introduce ritualism, and also over the weakness of his voice. He is a son of Jay Cooke, and came here from New-Hampshire.

A celebrated case is on trial at Willows, Glenn County, involving the payment of a note for \$120,000, made twenty-two years ago, with interest at 1 per cent a month. The note is alleged to have been made by William Murdock. a wealthy ranchman, to Samuel Murdock, his many years. The note was drawn in favor of Mrs. Gawn Murdock, daughter-in-law of Samuel, and made to fall due about the time of the majority of her two sons, who were favorites of their uncle. Samuel died several years after making the note, and the document was preserved all these years by the woman, who now brings suit for its value. The defendant as-serts the note is a forgery and has an imposing array of handwriting experts to prove the as-

Judge Roos, of the District Court at Los Angeles, this week rendered an important decision. which gives to the Government nearly 610,000 acres heretofore claimed by the Southern Pacific Railroad Company. The disputed land overlapped the old Texas Pacific Railroad grant, and when the latter grant lapsed for lack of fulfilling the conditions imposed by the Govruining the conditions imposed by the Government this tract, which was claimed by the Southern Pacific Railroad, should have reverted to the Government. The lands are situated west of Yuma, on the Colorado Desert, and are now arid, but they may be brought under the proposed Colorado irrigating system, and thus become valuable, as the soil will produce fine crops with an abundance of water.

Temperance is a living issue in many of the Southern California towns. In Pomona this week a desperate effort was made to get rid of two high-license saloons which had been running for a year, and revert to old strict prohibition All-day prayer-meetings were held in the churches, and the women took an active hand at the meetings, and exhorted the voters to cast their ballots against granting any li-censes to saloons. The result was the Prohibi-tion party won by a majority of 80 votes, af-ter the most exciting election ever seen in the

The upward movement in Hawaiian Commercial stock continues, the advance for the week being from 90 to 97. Edward Pollitz, a broker, returned this week from Hawaii, where he bought the controlling interest in the Walluku plantation, which will be added to the other acreages of Hawaiian Commercial, making it the largest sugar estate in the world. San Francisco Gas has fluctuated, but there has been no material change, the stock closing at 73%. Alaska Commercial closed at 110, Spring Valley at 102, and Market Street Railway at 62%.

RECORDS OF POLICE BRAVERY WANTED. Chief Devery has sent an order to all commanding formed by policemen in their commands in the year 1888. The Board will then decide which officer is entitled to the Rhinelander Medal for Valor for that year. The medal is awarded each year at the sanual police parade to the patrolman performing, in the opinion of the Board, the bravest and most heroic act. The reports must be in by next week.

NO TRANSFER FOR GOTH REGIMENT.

There has been some talk in the last few days ut the transfer of the 69th Regiment from the Fifth to the First Brigade, but it has not been usidered seriously at headquarters. The officers of the regiment who are at the head of the movethe general officers who have power in that directication of Lazarus," is to assist the St. Raphael So. troops and the composition of the brigades in the borough of Manhattan.

"Even if an armory sile on the West Side should be selected for the 68th Regiment," said an officer of high rank, "the regiment would still remain in the Fifth Brigade, and it is more probable that some of the dissatisfied officers of the regiment will leave the service than that the regiment will be transferred."

TRADING ON A LARGE SCALE.

THE MARKET NOTABLY STRONG-EFFECT OF THE BANK STATEMENT-SOME OF THE CHANGES.

The trading in stocks yesterday was on a large scale. In the two hours of business on the New-York Stock Exchange 502,421 shares were dealt in, not including "rights." The stock market was notably strong, especially after the appearance of the bank statement, which showed an increase of \$4,452,700 in the surplus reserve. There was a derease of \$10,355,200 in loans and a decrease of \$5,486,400 in deposits. The bank statement was interpreted as indicating that the disturbance in the ney market had terminated.

Some of the net advances in stocks, comparing closing prices with those of Friday, were: American Tinplate, 1; Brooklyn Rapid Transit, 1%, American Tinpiate, I; Brooklyn Rapid Transii, Pa; Colorado Fuel and Iron common, 5%; Colorado Fuel and Iron preferred, Pa; Continental Tobacco com-mon, 3; Continental Tobacco preferred, Pa; Deia-ware and Hudson, Pa; Kansas City, Pittsburg and Gulf, Pa; Manhattan, Pa; Manhattan Beach, 2½; Metropolitan Street Railway, Pa; Mobile and Ohio, People's Gas, Pa; Pressed Steel Car preferred, Pa; Reading first preferred, Pa, and Third Avenue Rail-road, Pa.

Reading first preferred, 1%, and Third Avende Raiser (1986). Brooklyn Rapid Transit, while closing at 125%, sold at 127, which was the highest price it ever touched. There was a report that the De Kalb-ave, and Smith-st. lines, the only lines in Brooklyn not controlled by the Rapid Transit Company, would be taken in before long. The rise in People's Gue was due to the adjournment of the Illinois Legislature without passing any of the so-called "sandbagging" measures. The sudden activity and advance in Colorado Fuel and Iron was not explained.

THE PRINT-CLOTH MARKET.

Fall River, Mass., April 15 (Special).-The local cloth market has been quiet this week, and sales have been light, but there is one encouraging feat-ure about the situation. Fathers, has just returned to this city after a fortnight's visit to Cuba, where he went for the purpose of studying the religious and political conditions. In speaking of his visit yesterday Father Doyle said:

"As on the Continent of Europe, the custom prevalls in Cuba of not having pews in the churches, and, in my judgment, not a little of the want of devotion among Cuban men is due to this. It takes a very ardent devotee to kneel down on the cold marble tile without any support, while if he had a snug pew to set into his prayers would be longer and he would be more insistent with them. The pew undoubtedly contributes as well to the pastor's salary. This latter is no small concern where there is no Government agent to send in his checks every month. The new order of affairs will demand the pew system, and religion will be helped thereby. It will do away also with the beaurocratic side of the Church, and spiritual affairs, being the sole object of attention, will get more emphasis.

It. It is the only safeguard of a stable government, erament were withdrawn to-day, to-morrow there would be a mild form of anarchy. The property-owners do not want to trust their interests to the uncertainty of a government which may be thrown out by the breath of a revolution. Cuba is rich in natural resources, but is richer still in the boundless hope of the future. She is a rich quarry of untold wealth. In the point of view of agriculture there is nothing that can be grown in a warm climate that will not flourish there. The crops are stumbling over themselves to get out of the ground. The people do not begin to know what the ground can produce. In Spanish times nothing was permitted to grow there that would thrive in Spain.

"Cuba wants first the assurance of a stable government, second, plenty of capital, and, third, immigration. The blood of the people must be renewed by infusion of the strong, virile energies of other races. When the island is thoroughly cleaned up there will be no denger of fevers. People from the United States may go down there and will go down there to settle. All the year through it does not get any warmer in Hawana than it does in New-York in the summer time.

"The amalgamation of other races will be slow, because the Cuban home life is so well established. The stranger sees very little of the sweet family life that is behind the heavy doors and thick bars that frown on the street. The patriarchal idea is thoroughly established in the homes, and where it is they are very tenactous of traditions. But in husiness life a strong infusion of American methods will simplify things and contribute not a little to the commercial life of the people." erament were withdrawn to-day, to-morrow there

INASSAU'S FIRST MURDER.

ONE MAN KILLED AND ANOTHER SE-VERELY WOUNDED.

TWO MEN WHO HAD BEEN BOMBARDING A HOUSE IN OCEANSIDE WITH EMPTY BEER BOTTLES

of Oceanside, Nassau County, shot and killed Thomas Nickerson late on Friday night and wounded Daniel Pearsall. The killing ended a celebration at the Ousterman house. Emma Smith, about thirty years old, has been the housekeeper of Ousterman, and it is said that Nickerson had been attentive to her. With Pearsail he called at the Ousterman house in Oceanside. In addition to Ousterman and Miss Smith. Annie Truneck was in the house. All seemed to get along together without trouble for about an hour. Then Nickerson and Pearsall withdrew in an angry frame of mind, and are alleged to have bombarded the Ousterman house with empty beer bottles. Ousterman went to the door and or-dered the men to desist. He said he would shoot them if they continued to break the windows of his

terman, and, securing a double-barrelled shotgun from his son-in-law, Edward Baldwin, who had

from his son-in-law, Edward Baldwin, who had been attracted by the quarrel, and who fired in the air when he saw Nickerson having his father-in-law by the neck Ousterman fired the remaining charge at Nickerson and Pearsall as they started down the road.

Then Ousterman and Baldwin went into the house, but came out later with a lantern, and saw bloodstains. They followed the trail, and found Nickerson lying dead heside a fence. He had been struck by the charge of shot in the brain and right lung. In all forty-eight shot entered his body. Pearsall was wounded in the right hand and left leg, but he managed to run to Rockville Centre, where he was found yesterday morning and taken into custody.

Ousterman was locked up by Policeman Joseph Shelley, of Rockville Centre, of which Oceanside is practically a part, and Pearsall and the women were held as witnesses.

Ousterman asserts that he did the shooting in self-defence. Justice Wheeler, who committed him to await the result of the Coroner's inquest, found eleven panes of glass in Ousterman's house broken and beer bottles all over the inside of the house. The killing is the first homicide committed in the new county of Nassau.

TO PROTECT MEADOW BROOK.

THE HEMPSTEAD WATER COMPANY EX-TENDING ITS MAINS TO EAST MEADOW

Hempstead, Long Island, April 15,-The local water company is extending its mains from this village to East Meadow, a distance of several miles. A four-inch pipe is being laid, and 3,500 feet have already been finished. The wealthy members of the Meadow Brook Hunt Club are the persons who induced the company to run its pipes in the direction of the clubhouse. The recent fire at Oakdale, when Idle Hour, the country house of William K. Vanderblit, was destroyed, made the colony near here realize that a disastrous fire might occur in any of their homes owing to the lack of water to fight a blaze should one break cut. The matter was talked over, and then the application for the extension of the water mains was made.

When the work is completed there will be a plentiful supply of water near the homes of all the wealthy members of the Meadow Brook colony. Hydrants will be numerous alonge the line of the pipes, so that plenty of hose can be used on any fire that may break out. Idle Hour, the country house of William K. Van-
